Information about student dormitories

DISCLAIMER: This document is only a compilation of information available on the internet about student dormitories in Bonn. The AStA international student department is not responsible for the veracity of this information. The prices shown in this document correspond to January 2024.

1. Dormitories of the Studierenwerk Bonn

Studierendenwerk Bonn offers around 3,620 rooms in its 33 dormitories. Students who are looking for a room in a dormitory must request it online:

<https://tl1host.eu/SWBN/#home>

When applying it is possible to give some preferences regarding the dormitories, which are listed on the Studentenwerk Bonn website.

PLEASE NOTE!

In order to apply, **no admission** from the University of Bonn is required. That means you can apply any time for the housing. That's why we advise you to apply at the same time for an accommodation room and for a study place at the University of Bonn.

If your course of study begins in the **winter semester**, it is advisable to submit your application in March, April and June. For the **summer semester** in October, November and December.

Once you have completed your application, you will receive an **automatic email** from Studierendenwerk Bonn with a **confirmation link** through which you will confirm your interest in accommodation. **This link will be sent to you each month** for you to confirm. **Without confirming, your request will not be valid.** If this happens, you can write an email to Studierendenwerk requesting to reactivate your application.
